REPORT

TO THE

SECRETARY OF THE DEPARTMENT OF
AGRICULTURE AND TECHNICAL INSTRUCTION
FOR IRELAND.

SIR,

I have the honour to submit the following Half-yearly Report, July-December, 1914, on the Banking and Railway Statistics of Ireland. As regards Banks and Banking in Ireland the Report states (I.) the deposits and cash balances in Joint Stock Banks; (II.) the deposits in Post Office and Trustee Savings Banks in Ireland; (III.) the amount of the Government Funds, India Stocks, and Guaranteed Land Stocks upon which dividends are payable at the Bank of Ireland; (IV.) the Note Circulation of, and the amount of Coin held by, the Irish Banks of Issue; and (V.) the development of Co-operative Credit Associations in Ireland. As regards Railways in Ireland the Report states (1) the weekly traffic receipts; (2) the total traffic in passengers and goods and the receipts therefrom; (3) the total authorised share and loan capital, &c.; and (4) the total expenditure, rolling stock, &c. Two Statistical Diagrams are placed in this Report to illustrate respectively the growth of Irish Banking and of Post Office and Trustee Savings Banks since the year 1895 (page 14), and the weekly receipts of Irish Railways in each week of the years 1913 and 1914 (page 36).

BANKS.

I. Deposits and Cash Balances in Joint Stock Banks.

The deposits and cash balances in the Irish Joint Stock Banks at the close of December, 1914, as shown in Table I., stood at £66,168,000 (exclusive of £2,745,000 Government and other Public Balances in the Bank of Ireland), as compared with £62,142,000 at the corresponding period in the year 1913, being an increase of £4,026,000.

It is estimated that the amount due to the Joint Stock Banks on the 31st December, 1914, on account of Bills Discounted, Advances to Customers and Loans on Security was about £44,000,000, a decrease of about £3,000,000, as compared with the amount due at 31st December, 1913. This latter figure, however, is only an estimate as complete data are not available.

The following Tables I. and IA., show the growth of the deposits and cash balances in Irish Joint Stock Banks.

" 31st December	66,168,000	4,213,000		—

Comparing the amount on the 31st December in each of the last eleven years with the amount on the 30th of the previous June, there was an increase in every instance, except in amount on 31st December, 1912, which shows a decrease as compared with that for 30th June, 1912. This decrease was, no doubt, due to the dislocation of trade caused by the restrictions on the movements of live stock necessitated by the outbreak of Foot-and-Mouth Disease. However if the comparison is made between the amount on the 30th of June and the amount on the 31st of the previous December, it will be found that there was a decrease on 30th June, 1904, 1905, 1909, 1910, and 1914. The very large increase in the last six months of the year 1914 is directly attributable to the war; farmers who have benefited considerably owing to increased prices for agricultural produce have been able to make larger deposits and in addition money which in ordinary times would have been utilised for other investments has been placed and left in the banks.

II. Savings Banks.*

The deposits in Savings Banks consist of two groups—those in the Post Office Savings Banks which are set out in Tables II and II (A), and those in Trustee Savings Banks, shown in Tables III. and III. (A).

(a) Post Office.

It will be observed from Table II. that on the 31st December, 1914, the estimated balances in the Post Office Savings Banks in Ireland amounted to £12,748,000, as compared with £13,167,000 for the corresponding date in 1913, being a decrease of £419,000. Comparing the balances on the 31st December of each year since 1894, when the Post Office Savings Banks were established, with the balances on the 31st December of the previous year there was an increase in every instance with the exceptions of the years 1907 and 1914.

The large decrease on 31st December, 1914, was probably due to withdrawals to meet increased cost of living in the last five months of the year.

Table II. (A) shows by half-years, since June, 1904, the accumulation of deposits in the Post Office Savings Banks. From this Table it appears that there has been an increase in each half-year, with the exception of those ended 31st December, 1907 and 31st December, 1914. The balance due to depositors on 31st December, 1914, compared with that due on 30th June, 1914, shows a decrease of £555,000.

Tables IV. and IV.A. show the progress of the total accumulation of small savings in Post Office and Trustee Savings Banks in Ireland. From Table IV. it will be seen that the total amount in the Post Office and Trustee Savings

Banks in Ireland on the 31st December, 1914, was £15,307,000, as compared with £15,779,000 on 31st December, 1913. There was thus a decrease of £472,000 in the year 1914, as compared with an increase of £349,000 in the year 1913.

It will also be observed that with the exceptions of the years 1907 and 1914 there has been an increase in each year since 1894 and that the balance in Savings Banks on the 31st December, 1914, was nearly two and a quarter times the amount to the credit of depositors at the close of the year 1894.

Table IV. (A), in which the amount of small savings is set forth by half-years for the past eleven years, shows that,

with the exceptions of those for the half-years ended 31st December, 1907, and 31st December, 1914, the half-yearly balances in Savings Banks in Ireland continuously increased. As between the Post Office Savings Banks and the Trustee Savings Banks, this decrease of £614,000 in the Balances for the December half-year, 1914, is made up of a decrease of £555,000 in the case of the former, and a decrease of £59,000 in the case of the latter.

* Consisting of active and dormant accounts; the latter being accounts with balances of less than £1 which have been dormant five years and upwards. These dormant accounts form nearly one-third of the total. The number of accounts open in 1914, namely, 658,000, was made up of 441,000 active and 217,000 dormant accounts.

The accompanying diagram (A) shows graphically the position and progress of the amounts of the Deposits and Cash Balances in Joint Stock Banks and the amounts of the Deposits in Post Office and Trustee Savings Banks during the twenty years 1895-1914.

III. Government Funds; India Stocks; Guaranteed Land Stock (1891 Act); Guaranteed 2½ per cent. Stock (1903 Act); and Guaranteed 3 per cent. Stock (1909 Act).

It will be seen from Table V. that on the 31st December last the total amount of the Government Funds, India Stocks, Guaranteed Land Stock (1891 Act), Guaranteed 2½ per cent. Stock (1903 Act), and Guaranteed 3 per cent. Stock (1909 Act) on which dividends are payable at the Bank of Ireland, was £42,042,000,* or £152,000 over the amount for the close of the year 1913, in which year there was a decrease of £618,000 as compared with the amount for December, 1912. It is to be noted that the amount of Guaranteed Land Stock (1891 Act) for 31st December last was £10,729,000,† against £10,899,000 for the corresponding day of the preceding year, and £11,161,000 for the last day of 1912.

* This figure includes Stocks held by Government Departments.

† This is a net total including Mature and Immature Stock, but excluding the amount (£65,000) cancelled.

IV.—Bank Note Circulation and Coin Held.

The average Bank Note circulation of the Six Banks of Issue in Ireland for the December period 1914 was £12,147,000, as against £9,019,000 for 1913, showing an increase of £3,128,000. For the same periods, the average amounts of Coin held by these Banks were respectively £8,117,000 and £4,768,000, showing an increase of £3,349,000. Table VI. presents the December returns for the years 1904-1914.

RAILWAYS.

The receipts of Irish Railways, week by week, for the year 1914 have been supplied to this Department by the authorities of the several Companies, and will be found tabulated in Table VIII., and compared with the receipts for the year 1913. This Table does not include the returns of the Light Railways of Ireland.

A review of the weekly traffic returns shows that in the 31 weeks from January to July the weekly receipts fluctuated irregularly in comparison with those of the previous year, there being increases in 12 weeks and decreases in 19 weeks, the aggregate receipts being 0·9 per cent. below those for the corresponding period. From the 32nd week, the first week of the war in August, to the middle of September the comparison showed a continuous weekly decrease which was, however, followed by a steady weekly increase to the end of the year. The aggregate receipts for this period were 2·0 per cent. over those for the corresponding period of the previous year. The total receipts for the 52 weeks of the year 1914 amounted to £4,648,376, an increase of £14,477, or 0·3 per cent., as compared with the amount received in the preceding year.

The diagram which faces this page shows the gross amounts (in thousands of pounds) received by Irish Railways in respect of goods and passengers in each week of the years 1913 and 1914. It will be noticed that the two curves show the same general tendencies towards seasonal change. They are lowest at the beginning of the year, rise to their maxima about July and August, and then decline to the end of the year. The closeness with which the two curves approximate each other is evidence of the permanent nature of the conditions affecting the Railway receipts from year to year.

The total receipts for the year 1914 were as above stated £4,648,376 as against £4,633,899, in 1913, £4,354,817 in 1912, £4,353,307 in 1911, £4,309,057 in 1910, £4,180,023 in 1909, £4,105,549 in 1908, £4,152,749 in 1907, £4,027,103 in 1906, £3,958,880 in 1905, £3,981,779 in 1904, £3,935,996 in 1903, £3,910,925 in 1902, £3,667,679 in 1901, £3,681,018 in 1900, £3,600,293 in 1899, £3,493,389 in 1898, £3,442,036 in 1897, £3,387,409 in 1896, £3,368,282 in 1895, £3,303,739 in 1894, and £3,181,043 in 1893, when the receipts were higher than those for any previous year. It should be

stated that the weekly receipts published in this table only approximate to completeness. The complete figures for each year are published annually by the Board of Trade.

This Report includes a statistical record—Tables IX., X., and XI.—of Irish Railways (including Light Railways) for each year from 1902 to 1912. These figures are compiled from the annual statistical returns furnished by the several Railway Companies to the Board of Trade in accordance with the requirements of the Regulation of Railways Act, 1871, and the Railway and Canal Traffic Act, 1888. The figures for the year 1913, which, in the ordinary course, would have been included in these tables, are unavoidably omitted as, owing to the extensive alteration of the form and scope of the Returns consequent on the coming into force on 1st January, 1913, of the Railway Companies (Accounts and Returns) Act, 1911, the preparation of the Returns for the year 1913, has been considerably delayed, and the delay has been aggravated by the pressure of more urgent work arising out of the war.
